

Frankenstein Oxford Classics Study Guide

Thank you unquestionably much for downloading **Frankenstein Oxford Classics Study Guide**. Maybe you have knowledge that, people have see numerous period for their favorite books in the same way as this Frankenstein Oxford Classics Study Guide, but stop up in harmful downloads.

Rather than enjoying a fine PDF in the manner of a cup of coffee in the afternoon, otherwise they juggled afterward some harmful virus inside their computer. **Frankenstein Oxford Classics Study Guide** is easy to get to in our digital library an online permission to it is set as public consequently you can download it instantly. Our digital library saves in fused countries, allowing you to get the most less latency period to download any of our books next this one. Merely said, the Frankenstein Oxford Classics Study Guide is universally compatible in imitation of any devices to read.

The Original Frankenstein Mary Shelley 2011-10-12 Working from the earliest surviving draft of Frankenstein, Charles E. Robinson presents two versions of the classic novel—as Mary Shelley originally wrote it and a subsequent version clearly indicating Percy Shelley’s amendments and contributions. For the first time we can hear Mary’s sole voice, which is colloquial, fast-paced, and sounds more modern to a contemporary reader. We can also see for the first time the extent of Percy Shelley’s contribution—some 5,000 words out of 72,000—and his stylistic and thematic changes. His occasionally florid prose is in marked contrast to the directness of Mary’s writing. Interesting, too, are Percy’s suggestions, which humanize the monster, thus shaping many of the major themes of the novel as we read it today. In these two versions of Frankenstein we have an exciting new view of one of literature’s greatest works.

In Frankenstein's Shadow Chris Baldick 1990 This book surveys the early history of one of our most important modern myths: the story of Frankenstein and the monster he created from dismembered corpses, as it appeared in fictional and other writings before its translation to the cinema screen. It examines the range of meanings which Mary Shelley's Frankenstein offers in the light of the political images of 'monstrosity' generated by the French Revolution. Later chapters trace the myth's analogues and protean transformations in subsequent writings, from the tales of Hoffmann and Hawthorne to the novels of Dickens, Melville, Conrad, and Lawrence, taking in the historical and political writings of Carlyle and Marx as well as the science fiction of Stevenson and Wells. The author shows that while the myth did come to be applied metaphorically to technological development, its most powerful associations have centred on relationships between people, in the family, in work, and in politics.

The Phantom of the Opera Gaston Leroux 1989 A disfigured musical genius who lives beneath the Paris Opera House falls in love with a beautiful soprano and, in his desperation to have his love returned, embarks on some terrifying means towards that end.

Classical Traditions in Science Fiction Brett M. Rogers 2015-01-12 For all its concern with change in the present and future, science fiction is deeply rooted in the past and, surprisingly, engages especially deeply with the ancient world. Indeed, both as an area in which the meaning of "classics" is actively transformed and as an open-ended set of texts whose own 'classic' status is a matter of ongoing debate, science fiction reveals much about the roles played by ancient classics in modern times. Classical Traditions in Science Fiction is the first collection in English dedicated to the study of science fiction as a site of classical receptions, offering a much-needed mapping of that important cultural and intellectual terrain. This volume discusses a wide variety of representative examples from both classical antiquity and the past four hundred years of science fiction, beginning with science fiction's "rosy-fingered dawn" and moving toward the other-worldly literature of the present day. As it makes its way through the eras of science fiction, Classical Traditions in Science Fiction exposes the many levels on which science fiction engages the ideas of the ancient world, from minute matters of language and structure to the larger thematic and philosophical concerns.

Worm Work Janelle A. Schwartz 2012 Worms. Natural history is riddled with them. Literature is crawling with them. From antiquity to today, the ubiquitous and multiform worm provokes an immediate discomfort and unconscious distancing: it remains us against them in anthropocentric anxiety. So there is always something muddled, or dirty, or even offensive when talking about worms. Rehabilitating the lowly worm into a powerful aesthetic trope, Janelle A. Schwartz proposes a new framework for understanding such a strangely animate nature. Worms, she declares, are the very matter with which the Romantics rethought the relationship between a material world in constant flux and the human mind working to understand it. Worm Work studies the lesser-known natural historical records of Abraham Trembley and his contemporaries and the familiar works of Erasmus Darwin, Charles Darwin, William Blake, Mary Shelley, and John Keats, to expose the worm as an organism that is not only reviled as a taxonomic terror but revered as a sign of great order in nature as well as narrative. This book traces a pattern of cultural production, a vermiculture that is as transformative of matter as it is of mind. It distinguishes decay or division as positive processes in Romantic era writings, compounded by generation or renewal and used to represent the biocentric, complex structuring of organicism. Offering the worm as an archetypal figure through which to recast the evolution of a literary order alongside questions of taxonomy from 1740 to 1820 and on, Schwartz unearths Romanticism as a rich humus of natural historical investigation and literary creation.

Frankenstein, Or, The Modern Prometheus Mary Wollstonecraft Shelley 2009 A monster assembled by a scientist from parts of dead bodies develops a mind of his own as he learns to loathe himself and hate his creator.

Frankenstein Mary Wollstonecraft Shelley 1980 The California edition of the Pennyroyal Press "Frankenstein" unites the dark side of Barry Moser's art with the classic 1818 text of Mary Shelley's tale of moral transfiguration. In a vivid sequence of woodcuts, the reader witnesses the birth of the "monster" as Moser shapes him from darkness and gives him a form simultaneously ghastly in its malice and transfixing in its suffering.

Oxford Reading Tree: Stage 16A: TreeTops Classics: Frankenstein Mary Shelley 2006-09-28 These children's classics have been sensitively adapted to enrich your junior pupils' reading. They are part of a structured reading programme for juniors from Oxford Reading Tree, Stages 9-16. They have masses of boy and girl appeal and will introduce your readers to significant authors from the past - a key part of the Literacy Strategy. Each book features two author biographies - one for the original author and one for the TreeTops author. In addition each book includes comprehension questions and teaching notes to help draw out and practice difficult comprehension strategies such as inference, empathy and deduction. There are also notes to help with historical and social context and any challenging vocabulary, ensuring the books are easily accessible. This book is also available as part of a mixed pack of 6 different books or a class pack of 36 books of the same ORT stage. Each book pack comes with a free copy of up-to-date and invaluable teaching notes.

A Study Guide for Percy Bysshe Shelley's Ozymandias Gale, Cengage Learning 2015-09-15 A Study Guide for Percy Bysshe Shelley's "Ozymandias," excerpted from Gale's acclaimed Poetry for Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Poetry for Students for all of your research needs.

Frankenstein, or, The Modern Prometheus Mary Wollstonecraft Shelley 1869 Frankenstein was published in 1818, the work of a 21-year-old genius named Mary Shelley. Hundreds of movies, adaptations, and monster masks later, its reputation remains so lively that the title has become its own word in the English language. Victor Frankenstein, a scientist, discovers the secret of reanimating the dead. After he rejects his hideous creation, not even the farthest poles of the earth will keep his bitter monster from seeking an inhuman revenge. Inspired by a uniquely Romantic view of science’s possibilities, Shelley’s masterpiece ultimately wrestles with the hidden shadows of the human mind.

Valperga, Or, The Life and Adventures of Castruccio, Prince of Lucca Mary Wollstonecraft Shelley 1997 Not reprinted since its first edition, Mary Shelley's second novel is sure to be a major discovery of the Mary Shelley bicentenary of 1997. The novel's lack of success as a follow-up to Frankenstein was the result of its subject matter and unconventional approach to the genre of historical fiction, attributes that can only delight the twentieth-century reader. Shelley's mastery of the intricate details of thirteenth-century Tuscan politics is unique among women of her time, and her resolute filtering of the bloody heroics of the age through the sensibilities of two women who are destroyed by them reveals the feminist perspective missing so conspicuously from her first novel. The latest addition to the acclaimed Women Writers in English series, this glittering novel from Romanticism’s premier woman storyteller belongs on the shelves of all serious readers of English fiction.

Shelley's Frankenstein Graham Allen 2008-12-23 This is the perfect study guide to Shelley's classic gothic novel, Frankenstein - a key text for introductory literature courses at undergraduate level. >

A Research Guide to Gothic Literature in English Sherri L. Brown 2018-03-15 The Gothic began as a designation for barbarian tribes, was associated with the cathedrals of the High Middle Ages, was used to describe a marginalized literature in the late eighteenth century, and continues today in a variety of forms (literature, film, graphic novel, video games, and other narrative and artistic forms). Unlike other recent books in the field that focus on certain aspects of the Gothic, this work directs researchers to seminal and significant resources on all of its aspects. Annotations will help researchers determine what materials best suit their needs. A Research Guide to Gothic Literature in English covers Gothic cultural artifacts such as literature, film, graphic novels, and videogames. This authoritative guide equips researchers with valuable recent information about noteworthy resources that they can use to study the Gothic effectively and thoroughly.

The English Literature Companion Julian Wolfreys 2017-09-16 What does it mean to study English Literature? Have can you navigate and get the most from your degree? The English Literature Companion is your comprehensive introduction to, and exploration of, the discipline of English and Literary Studies. It is your advisor on key decisions, and your one-stop reference source throughout the course. It combines: - A wide-ranging introduction to the nature, breadth and key components of the study of English Literature - Essays by experts in the field on key topics, periods and critical approaches - A glossary of critical terms and a chronology of literary history - Guidance about study skills, from using your time effectively to the practical mechanics of writing essays - Extensive signposting to wider reading and further sources of information - Advice on key decisions taken during a degree and on subsequent career direction and further study Giving you the foundation and resources you need for success in English Literature, this book is essential pre-course reading and will be an invaluable reference resource throughout your degree.

Reader's Guide to Lesbian and Gay Studies Timothy Murphy 2013-10-18 The Reader's Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals (Adrienne Rich); arts and cultural studies (Dance); ethics, religion, and philosophical issues (Monastic Traditions); historical figures, periods, and ideas (Germany between the World Wars); language, literature, and communication (British Drama); law and politics (Child Custody); medicine and biological sciences (Health and Illness); and psychology, social sciences, and education (Kinsey Report).

Teaching the Gothic A. Powell 2006-03-21 Teaching the Gothic provides a clear and accessible account of how scholarship on the Gothic has influenced the way in which the Gothic is taught. The book examines a range of topics including Gothic criticism, Theory, Romantic Gothic, Victorian Gothic, Female Gothic, Gothic Sexualities, Gothic Film and Postgraduate developments.

The Cambridge Companion to `Frankenstein' Andrew Smith 2016-08-25 Sixteen original essays by leading scholars on Mary Shelley's novel provide an introduction to Frankenstein and its various critical contexts.

The Lady and Her Monsters Roseanne Montillo 2013-02-05 The Lady and Her Monsters by Roseanne Motillo brings to life the fascinating times, startling science, and real-life horrors behind Mary Shelley’s gothic masterpiece, Frankenstein. Montillo recounts how—at the intersection of the Romantic Age and the Industrial Revolution—Shelley’s Victor Frankenstein was inspired by actual scientists of the period: curious and daring iconoclasts who were obsessed with the inner workings of the human body and how it might be reanimated after death. With true-life tales of grave robbers, ghoulish experiments, and the ultimate in macabre research—human reanimation—The Lady and Her Monsters is a brilliant exploration of the creation of Frankenstein, Mary Shelley’s horror classic.

Frankenstein (Modern English Translation) Mary Shelley 2019-05 Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored, setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's Frankenstein, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

The Classic Horror Stories H. P. Lovecraft 2013-05-09 'Loathsomeness waits and dreams in the deep, and decay spreads over the tottering cities of men. A time will come - but I must not and cannot think!' H. P. Lovecraft (1890-1937) was a reclusive scribbler of horror stories for the American pulp magazines that specialized in Gothic and science fiction in the interwar years. He often published in Weird Tales and has since become the key figure in the slippery genre of 'weird fiction'. Lovecraft developed an extraordinary vision of feeble men driven to the edge of sanity by glimpses of malign beings that have survived from human prehistory or by malevolent extra-terrestrial visitations. The ornate language of his stories builds towards grotesque moments of revelation, quite unlike any other writer. This new selection brings together nine of his classic tales, focusing on the 'Cthulhu Mythos', a cycle of stories that develops the mythology of the Old Ones, the monstrous creatures who predate human life on earth. It includes the Introduction from Lovecraft's critical essay, 'Supernatural Horror in Literature', in which he gave his own important definition of 'weird fiction'. In a fascinating contextual introduction, Roger Luckhurst gives Lovecraft the attention he deserves as a writer who used pulp fiction to explore a remarkable philosophy that shockingly dethrones the mastery of man.

The Cambridge Companion to Mary Shelley Esther Schor 2003-11-20 Known from her day to ours as 'the Author of Frankenstein', Mary Shelley indeed created one of the central myths of modernity. But she went on to survive all manner of upheaval - personal, political, and professional - and to produce an oeuvre of bracing intelligence and wide cultural sweep. The Cambridge Companion to Mary Shelley helps readers to assess for themselves her remarkable body of work. In clear, accessible essays, a distinguished group of scholars place Shelley's works in several historical and aesthetic contexts: literary history, the legacies of her parents William Godwin and Mary Wollstonecraft, and of course the life and afterlife, in cinema, robotics and hypertext, of Frankenstein. Other topics covered include Mary Shelley as a biographer and cultural critic, as the first editor of Percy Shelley’s works, and as travel writer. This invaluable volume is complemented by a chronology, a guide to further reading and a select filmography.

Frankenstein - Third Edition Mary Shelley 2012-06-20 D.L. Macdonald and Kathleen Scherf’s edition of Frankenstein has been widely acclaimed as an outstanding edition of the novel—for the general reader and the student as much as for the scholar. The editors use as their copy-text the original 1818 version, and detail in an appendix all of Shelley’s later revisions. They also include a range of contemporary documents that shed light on the historical context from which this unique masterpiece emerged. New to this edition is a discussion of Percy Shelley’s role in contributing to the first draft of the novel. Recent scholarship has provoked considerable interest in the degree to which Percy Shelley contributed to Mary Shelley’s original text, and this edition’s updated introduction discusses this scholarship. A new appendix also includes Lord Byron’s “A Fragment” and John William Polidori’s The Vampyre, works that are engaging in their own right and that also add further insights into the literary context of Frankenstein.

A Handbook to the Reception of Classical Mythology Vanda Zajko 2017-03-16 A Handbook to the Reception of Classical Mythology presents a collection of essays that explore a wide variety of aspects of Greek and Roman myths and their critical reception from antiquity to the present day. Reveals the importance of mythography to the survival, dissemination, and popularization of classical myth from the ancient world to the present day Features chronologically organized essays that address different sets of myths that were important in each historical era, along with their thematic relevance Features chronologically organized essays that address different sets of myths that were important in each historical era, along with their thematic

relevance Offers a series of carefully selected in-depth readings, including both popular and less well-known examples

Frankenstein Mary Shelley 2021-08-24 The story of Victor Frankenstein and the monster he created has held readers spellbound since it was first published more than two centuries ago. On the surface, it is a novel of tense and steadily mounting dread. On a more profound level, it illuminates the triumph and tragedy of the human condition in its portrayal of a scientist who oversteps the bounds of conscience, and of a creature tortured by the solitude of a world in which he does not belong. A novel of almost hallucinatory intensity, Mary Shelley's Frankenstein represents one of the most striking flowerings of the Romantic imagination. It is a classic work of horror that blurs the line between man and monster.

The Routledge Handbook of Tourism and the Environment Andrew Holden 2012 The Routledge Handbook of Tourism and the Environmentexplores and critically evaluates the debates and controversies inherent to tourism's relationship with nature, especially pertinent at a time of major re-evaluation of our relationship with the environment as a consequence of the environmental problems we now face. It brings together leading specialists from range of disciplinary backgrounds and geographical regions, to provide state-of-the-art theoretical reflection and empirical research on this complex relationship and future direction. The book is divided in to five interrelated sections. Section one evaluates the philosophical basis, rationale and complexity of what is meant by the term 'environment' considering the major influences in the construction of how we understand our surroundings and the types of values we place upon them. Section two evaluates the types of eco-systems that are used as natural resources for tourism and the negative and positive impacts upon them. Section three evaluates relevant environmental policy and management mechanisms for the impacts of tourism on the natural environment. Section four focuses on the changing tourism-environment relationship, and the types of tourism that have become established in the tourism industry, market and policy. Section five, analyzes contemporary and future issues of the tourism-environment relationship, based upon themes of environmental and social welfare. This timely book will provide an invaluable resource for all those with an interest in tourism's relationship with the natural environment, encouraging dialogue across disciplinary boundaries and areas of study. The book is international in its focus, emphasizing that issues of tourism and the natural environment are not only localized but transcend national boundaries that sometimes require both international and global responses. This is essential reading for student, researchers and academics of Tourism as well as those of Geography, Environmental Studies and Development Studies. **Vicarious Narratives** Jeanne M. Britton 2019-09-19 Adam Smith's Theory of Moral Sentiments (1759) defines sympathy as a series of shifts in perspective by which one sees from a different point of view. British and French novels published over the following century redefine sympathy through narrative form--shifting perspectives or 'stories within stories' in which one character adopts the voice and perspective of another. Fiction follows Smith's emphasis on sympathy's shifting perspectives, but this formal echo coincides with a challenge. For Smith and other Enlightenment philosophers, the experience of sympathy relies on human resemblance. In novels, by contrast, characters who are separated by nationality, race, or species experience a version of sympathy that struggles to accommodate such differences. Encounters between these characters produce shifts in perspective or framed tales as one character sympathizes with another and begins to tell her story, echoing Smith's definition of sympathy in their form while challenging Enlightenment philosophy's insistence on human resemblance. Works of sentimental and gothic fiction published between 1750 and 1850 generate a novelistic version of sympathy by manipulating traditional narrative forms (epistolary fiction, embedded tales) and new publication practices (the anthology, the novelistic extract). Second-hand stories transform the vocal mobility, emotional immediacy, and multiple perspectives associated with the declining genre of epistolary fiction into the narrative levels and shifting speakers of nineteenth-century frame tales. Vicarious Narratives argues that fiction redefines sympathy as the struggle to overcome difference through the active engagement with narrative--by listening to, re-telling, and transcribing the stories of others.

The Picture of Health Henri Colt 2011-05-10 Narrative film can be a useful way of looking at bioethical scenarios. This volume presents a collection of brief, accessible essays written by international experts from medicine, social sciences, and the humanities, all of whom have experience using film in their teaching of medical ethics. Each author looks at a single scene from a popular film in order to illuminate its ethical dimensions.

Frankenstein Mary Shelley 2020-09-16 "In this new edition of Mary Shelley's Frankenstein, David Wootton's Introduction gives the reader both a clear and gripping account of the biographical circumstances that led to the novel's writing and the most striking and original interpretations of its central themes and of the intellectual and cultural influences on them. Offering a new account of the complex history of its composition, and drawing upon his deep knowledge of eighteenth- and nineteenth-century scientific debates, Wootton reveals the ways in which the origins of Shelley's novel are inextricably linked to conceptions of the origins of life itself. We have here a transformative reading of one of the world's best-known stories." —Laura Marcus, Goldsmiths' Professor of English Literature and Fellow of New College, University of Oxford

The Encyclopedia of the Gothic David Punter 2015-10-08 THE ENCYCLOPEDIA OF THE GOTHIC "Well written and interesting [it is] a testament to the breadth and depth of knowledge about its central subject among the more than 130 contributing writers, and also among the three editors, each of whom is a significant figure in the field of gothic studies ... A reference work that's firmly rooted in and actively devoted to expressing the current state of academic scholarship about its area." New York Journal of Books "A substantial achievement." Reference Reviews Comprehensive and wide-ranging, The Encyclopedia of the Gothic brings together over 200 newly-commissioned essays by leading scholars writing on all aspects of the Gothic as it is currently taught and researched, along with challenging insights into the development of the genre and its impact on contemporary culture. The A-Z entries provide comprehensive coverage of relevant authors, national traditions, critical developments, and notable texts that continue to define, shape, and inform the genre. The volume's approach is truly interdisciplinary, with essays by specialist international contributors whose expertise extends beyond Gothic literature to film, music, drama, art, and architecture. From Angels and American Gothic to Wilde and Witchcraft, The Encyclopedia of the Gothic is the definitive reference guide to all aspects of this strange and wondrous genre. The Wiley-Blackwell Encyclopedia of Literature is a comprehensive, scholarly, authoritative, and critical overview of literature and theory comprising individual titles covering key literary genres, periods, and sub-disciplines. Available both in print and online, this groundbreaking resource provides students, teachers, and researchers with cutting-edge scholarship in literature and literary studies.

Spectres of Antiquity James Uden 2020-09-10 Gothic literature imagines the return of ghosts from the past. But what about the ghosts of the classical past? Spectres of Antiquity is the first full-length study to describe the relationship between Greek and Roman culture and the Gothic novels, poetry, and drama of the eighteenth and early nineteenth centuries. Rather than simply representing the opposite of classical aesthetics and ideas, the Gothic emerged from an awareness of the lingering power of antiquity. The Gothic reflects a new and darker vision of the ancient world: no longer inspiring modernity through its examples, antiquity has become a ghost, haunting contemporary minds rather than guiding them. Through readings of works by authors including Horace Walpole, Ann Radcliffe, Matthew Lewis, Charles Brockden Brown, and Mary Shelley, Spectres of Antiquity argues that these authors' plots and ideas preserve the remembered traces of Greece and Rome. James Uden provides evidence for many allusions to ancient texts that have never

previously been noted in scholarship, and he offers an accessible guide both to the Gothic genre and to the classical world to which it responds. In fascinating and compelling detail, Spectres of Antiquity rewrites the history of the Gothic, demonstrating that the genre was haunted by a far deeper sense of history than has previously been assumed.

Frankenstein Urbanism Federico Cugurullo 2021-05-16 This book tells the story of visionary urban experiments, shedding light on the theories that preceded their development and on the monsters that followed and might be the end of our cities. The narrative is threefold and delves first into the eco-city, second the smart city and third the autonomous city intended as a place where existing smart technologies are evolving into artificial intelligences that are taking the management of the city out of the hands of humans. The book empirically explores Masdar City in Abu Dhabi and Hong Kong to provide a critical analysis of eco and smart city experiments and their sustainability, and it draws on numerous real-life examples to illustrate the rise of urban artificial intelligences across different geographical spaces and scales. Theoretically, the book traverses philosophy, urban studies and planning theory to explain the passage from eco and smart cities to the autonomous city, and to reflect on the meaning and purpose of cities in a time when human and non-biological intelligences are irreversibly colliding in the built environment. Iconoclastic and prophetic, Frankenstein Urbanism is both an examination of the evolution of urban experimentation through the lens of Mary Shelley's Frankenstein, and a warning about an urbanism whose product resembles Frankenstein's monster: a fragmented entity which escapes human control and human understanding. Academics, students and practitioners will find in this book the knowledge that is necessary to comprehend and engage with the many urban experiments that are now alive, ready to leave the laboratory and enter our cities.

Bowker's Guide to Characters in Fiction 2007 2008-02

A Christmas Carol Seán Michael Wilson 2008 The original Christmas Tale set in Victorian England. Highlighting the social injustice of the time we see one Ebenezer Scrooge go from oppressor to benefactor. Classical Comics' second Dickens title is probably his best-loved story. Scrooge gets a rude awakening to how his life is, and how it should be. Full of Christmas Spirit(s), this is a book that you'll read all year round!

The Oxford Handbook of Material Culture Studies Dan Hicks 2010-09-02 Written by an international team of experts, the Handbook makes accessible a full range of theoretical and applied approaches to the study of material culture, and the place of materiality in social theory, presenting current thinking about material culture from the fields of archaeology, anthropology, geography, and science and technology studies.

Oxford Bookworms Library: Stage 3: Frankenstein Mary Shelley 2007-11-08 Word count 9,685 Bestseller

The Oxford Handbook of Adaptation Studies Thomas M. Leitch 2017-04-14 This collection of forty new essays, written by the leading scholars in adaptation studies and distinguished contributors from outside the field, is the most comprehensive volume on adaptation ever published. Written to appeal alike to specialists in adaptation, scholars in allied fields, and general readers, it hearkens back to the foundations of adaptation studies a century and more ago, surveys its ferment of activity over the past twenty years, and looks forward to the future. It considers the very different problems in adapting the classics, from the Bible to Frankenstein to Philip Roth, and the commons, from online mashups and remixes to adult movies. It surveys a dizzying range of adaptations around the world, from Latin American telenovelas to Czech cinema, from Hong Kong comics to Classics Illustrated, from Bollywood to zombies, and explores the ways media as different as radio, opera, popular song, and videogames have handled adaptation. Going still further, it examines the relations between adaptation and such intertextual practices as translation, illustration, prequels, sequels, remakes, intermediality, and transmediality. The volume's contributors consider the similarities and differences between adaptation and history, adaptation and performance, adaptation and revision, and textual and biological adaptation, casting an appreciative but critical eye on the theory and practice of adaptation scholars--and, occasionally, each other. The Oxford Handbook of Adaptation Studies offers specific suggestions for how to read, teach, create, and write about adaptations in order to prepare for a world in which adaptation, already ubiquitous, is likely to become ever more important.

Bowker's Guide to Characters in Fiction 2003

Frankenstein: Your Classics. Your Choices Mary Shelley 2021 The reader's choices determine the path of Victor Frankenstein as he experiments on bringing the dead to life.

The Dark Descent of Elizabeth Frankenstein Kiersten White 2018-09-25 A NEW YORK TIMES BESTSELLER AN NPR BEST BOOK OF THE YEAR A CHICAGO PUBLIC LIBRARY BEST BOOK OF THE YEAR "Inescapably compelling." —VICTORIA SCHWAB, #1 New York Times bestselling author of The Invisible Life of Addie Larue "A masterful and monstrous retelling." —STEPHANIE GARBER, #1 New York Times and internationally bestselling author of Caraval and Legendary A stunning and dark reimagining of Frankenstein told from the point-of-view of Elizabeth Lavenza, who is taken in by the Frankenstein family. Elizabeth Lavenza hasn't had a proper meal in weeks. Her thin arms are covered with bruises from her "caregiver," and she is on the verge of being thrown into the streets . . . until she is brought to the home of Victor Frankenstein, an unsmiling, solitary boy who has everything—except a friend. Victor is her escape from misery. Elizabeth does everything she can to make herself indispensable—and it works. She is taken in by the Frankenstein family and rewarded with a warm bed, delicious food, and dresses of the finest silk. Soon she and Victor are inseparable. But her new life comes at a price. As the years pass, Elizabeth's survival depends on managing Victor's dangerous temper and entertaining his every whim, no matter how depraved. Behind her blue eyes and sweet smile lies the calculating heart of a girl determined to stay alive no matter the cost . . . as the world she knows is consumed by darkness. **Ebook exclusive: the full text of Mary Shelley's FRANKENSTEIN**

Frankenstein Mary Shelley 2017-04-28 The original 1818 text of Mary Shelley's classic novel, with annotations and essays highlighting its scientific, ethical, and cautionary aspects. Mary Shelley's Frankenstein has endured in the popular imagination for two hundred years. Begun as a ghost story by an intellectually and socially precocious eighteen-year-old author during a cold and rainy summer on the shores of Lake Geneva, the dramatic tale of Victor Frankenstein and his stitched-together creature can be read as the ultimate parable of scientific hubris. Victor, “the modern Prometheus,” tried to do what he perhaps should have left to Nature: create life. Although the novel is most often discussed in literary-historical terms—as a seminal example of romanticism or as a groundbreaking early work of science fiction—Mary Shelley was keenly aware of contemporary scientific developments and incorporated them into her story. In our era of synthetic biology, artificial intelligence, robotics, and climate engineering, this edition of Frankenstein will resonate forcefully for readers with a background or interest in science and engineering, and anyone intrigued by the fundamental questions of creativity and responsibility. This edition of Frankenstein pairs the original 1818 version of the manuscript—meticulously line-edited and amended by Charles E. Robinson, one of the world's preeminent authorities on the text—with annotations and essays by leading scholars exploring the social and ethical aspects of scientific creativity raised by this remarkable story. The result is a unique and accessible edition of one of the most thought-provoking and influential novels ever written. Essays by Elizabeth Bear, Cory Doctorow, Heather E. Douglas, Josephine Johnston, Kate MacCord, Jane Maienschein, Anne K. Mellor, Alfred Nordmann
