Human Enhancement Julian Savulescu 2009-01-22 To what extent should we use technological advances to try to make better human beings? Leading philosophers debate the possibility of enhancing human cognition, mood, personality, and physical performance, and controlling aging. Would this take us beyond the bounds of human nature? These are questions that need to be answered now.

TechnoFeminism Judy Wajcman 2013-05-20 This timely and engaging book argues that technoscientific advances are radically transforming the woman-machine relationship. However, it is feminist politics rather than the technologies themselves that make the difference. TechnoFeminism fuses the visionary insights of cyberfeminism with a materialist analysis of the sexual politics of technology.

The Bear That Wasn't Frank Tashlin 2010-03-09 "Once upon a time, in fact it was Tuesday," the Bear went into the woods to settle in for his long winter nap. But when he awoke what had happened? The trees were gone, the grass was gone, the flowers were gone, and in their place were buildings, cars, a fenced-off courtyard. The Bear had no idea that he was in the middle of a factory. "Get back to work!" a man yelled out of the blue. "I don't work here," said the Bear, "I'm a bear." The man laughed and laughed. "Fine excuse for a man to keep from doing any work—saying he's a bear." And so it began and so it went, with the Bear protesting his beariness all the way from the Third Vice President to the First, and no one willing to believe that he wasn't just a silly man in a fur coat who needed a shave. How the bear endured and how he finally prevailed are the subject of this delightful modern fairy tale—beautifully illustrated with the author's inventive line drawings—about sticking up for yourself, no matter how many Foremen, General Managers, Vice Presidents, or even Company Presidents stand in your way.

Frontier Wolf Rosemary Sutcliff 2013-08-31 'We are the scum and the scrapings of the Empire. They tipped out the garbage-bin of the Eagles to make us what we are.' In disgrace after a mistake that cost the lives of half his men, Alexios arrives in Castellum. It's his first command, but it isn't really a promotion. The Frontier Wolves who man this outpost in the far north of Roman Britain are a fierce and savage bunch, a far cry from the regular legions he'd served in before. Alexios will only survive if he learns to understand them and win their respect - and he's determined to try.

Digestive Intelligence Irina Matveikova 2014-06-06 Digestive Intelligence tells the fascinating story of how our digestive systems are the centre of our bodies' second brain and how we think and live our emotions via our stomachs. Not surprising when you consider there is something equivalent to the size of a village football pitch hiding inside our bellies--that's the incredible magnitude of our digestive systems. Dr Matveikova answers the

obvious questions: "How?" and "Why can this be so?" by explaining, in straight forward layman's language, that the digestive system contains more than one million neurones, identical to those in the brain and is responsible for producing 90% of the body's hormone, serotonin, the all-important hormone which makes us feel happy and full of wellbeing. It follows that, if our stomach is "out of sorts" we feel irritable and lacking in energy; and those feelings block our intellectual productivity, disorientate us and completely change our thought patterns and physical processes.

Bibliotecas escolares, lectura y educación Juan José Lage Fernández 2014-02-20 Este libro se estructura en tres apartados, todos ellos esenciales para la formación de las personas implicadas en el desarrollo de hábitos lectores entre los jóvenes: el primero relacionado con estudios e investigaciones sobre la literatura infantil y juvenil; el segundo, con las bibliotecas escolares y su dinamización, y el tercero, con estrategias de animación a la lectura. Se completa con tres interesantes apéndices: dos de ellos bibliográficos; el tercero es un exhaustivo "diccionario de citas", agrupadas en diez bloques y relacionadas con la lectura, la escritura, la literatura y la animación.

Yo leo, tú lees, él lee ... Santiago Yubero Jiménez 2002 Yo leo, tú lees, él lee...

es una guía para poder seleccionar libros por diversos grupos de edades. Es, por tanto, una guía para que los mediadores entre los libros y los niños (madres y padres, bibliotecarios, maestros, animadores) elijan lo que deseen, o lo que consideren más oportuno, en cada momento. Yo leo, tú lees, él lee... incluye libros para leer (a solas o en voz alta), libros para imaginar, para viajar, para soñar o, sencillamente, para jugar. En Yo leo, tú lees, él lee... se encontrarán libros para comprar, para compartir, para regalar, para recomendar, para sugerir o para prestar. En Yo leo, tú lees, él lee... aparecen libros de diversos formatos y tamaños, libros con más o menos ilustraciones, libros a todo color y en blanco y negro, libros de todos los precios. Algunos de ellos no se podrán adquirir ya en las librerías, pero, por su especial interés, hemos querido incluirlos, porque pueden ser consultados en diversas bibliotecas españolas. Quienes trabajamos en el Centro de Estudios de Promoción de la Lectura y Literatura Infantil (CEPLI) creemos firmemente en la tarea de los mediadores para la creación y consolidación de hábitos lectores en la población infantil y juvenil, porque para la creación de dichos hábitos es esencial provocar en el niño el ejercicio de la mimesis: ver leer en casa, ver leer en la escuela, ver leer en la tele,... La capacidad para el ejercicio mimético de los niños es instintiva, ya que observan e intentan reproducir no sólo aspectos exteriores de lo que ven, sino también hábitos, prejuicios y modelos de conducta. El niño cree y confía, en gran medida, en lo que creen y confían los adultos de su entorno; ese es uno de los motivos por los que es muy importante leerles y contarles cuentos, versos e historias desde muy pequeños; un poco más tarde, es también importante compartir lecturas, leer juntos, ver libros en la casa, fomentar hábitos de consulta y compra de libros, facilitar el acceso a los puntos de información y venta, y, sobre todo, no imponer la lectura ni como una obligación ni, mucho menos, como un castigo. En el ámbito de la familia, la relación del niño con la lectura pasa por tres fases sucesivas: en la primera, el niño no lee, sino que son los adultos quienes le leen en voz alta o le ayudan a leer libros de imágenes; en la segunda, el niño, que ya está aprendiendo los mecanismos básicos del proceso lector, lee junto al adulto; y, en la tercera, el niño que ya sabe leer, lee solo. En cualquier caso, sugerimos que se consulte esa especie de decálogo del Cuadro que incluimos al final de esta presentación, en el que indicamos algunas cosas fundamentales para crear hábitos lectores en el contexto familiar. Entendemos que es muy importante que el mediador disponga de ciertas informaciones que le ayuden a seleccionar los libros más atractivos, o interesantes, o asequibles, para cada edad. Por ese motivo, esta amplia lista se estructura en seis grandes grupos: el primero de ellos es el que corresponde a los Primeros lectores, el momento en que la mediación del adulto es más decisiva, y en que tanto la palabra oída como las imágenes tienen un gran protagonismo. Los tres grupos siguientes (A partir de 7 años, A partir de 9 años y A partir de 12 años) nos llevarán, progresivamente, al momento en que llega la normalización de los textos literarios, es decir A partir de 14 años. Finalmente, incluimos un bloque Para mediadores, en el que se podrán encontrar libros de fundamentos teóricos, antologías especiales o ediciones de clásicos infantiles que, por sus especiales características, no están pensadas para el uso directo por parte de los niños, sino para que les lleguen a través del propio mediador. Los criterios que hemos seguido para realizar esta división aparecen explicados en el artículo de Pedro C. Cerrillo (Qué leer y en qué momento, en Hábitos lectores y animación a la lectura. Cuenca. Ediciones de la UCLM, 1996, pp. 47 a 58). Quienes deseen formar una pequeña biblioteca familiar, o iniciar una biblioteca escolar, podrán encontrar aquí mil y una propuestas de contrastado interés. Hemos puesto especial cuidado en los dos

primeros grupos de edades, ya que son momentos en que la mediación del adulto, a que antes nos referimos, va más allá de la mera intermediación en la selección del libro: en esas edades es esencial que el adulto lea libros y cuente historias a los pequeños lectores, iniciando así un proceso de creación de hábitos lectores que, luego, va a ser decisivo para la consolidación del niño como lector autónomo.

A de Grummond Primer Carolyn J. Brown 2021-04-15 Contributions by Ann Mulloy Ashmore, Rudine Sims Bishop, Ruth B. Bottigheimer, Jennifer Brannock, Carolyn J. Brown, Ramona Caponegro, Lorinda Cohoon, Carol Edmonston, Paige Gray, Laura Hakala, Andrew Haley, Wm John Hare, Dee Jones, Allison G. Kaplan, Megan Norcia, Nathalie op de Beeck, Amy Pattee, Deborah Pope, Ellen Hunter Ruffin, Anita Silvey, Danielle Bishop Stoulig, Roger Sutton, Deborah D. Taylor, Eric L. Tribunella, Alexandra Valint, and Laura E. Wasowicz During the 1960s, a dedicated library science professor named Lena de Grummond initiated a letter-writing campaign to children's authors and illustrators requesting original manuscripts and artwork to share with her students. Now named after de Grummond, this archive at the University of Southern Mississippi has grown into one of the largest collections of historical and contemporary youth literature in North America with original contributions from more than 1,400 authors and illustrators, as well as over 185,000 volumes. The first book-length project on the collection, *A de Grummond Primer: Highlights of the Children's Literature Collection* provides a history of de Grummond's work and an introduction to major topics in the field of children's literature. With more than ninety full-color images, it highlights particular strengths of the archive, including extensive holdings of fairy tales, series books, nineteenth-century periodicals, Golden Age illustrated books, Mississippi and southern children's literature, nonfiction, African American children's literature, contemporary children's and young adult authors and illustrators, and more. The book includes contributions from literature and information science scholars, historians, librarians, and archivists—all noted experts on children's literature—and points to the exciting research possibilities of the archive. De Grummond could not have realized when she wrote to luminaries like H. A. and Margret Rey, Berta and Elmer Hader, Madeleine L'Engle, J. R. R. Tolkien, Lois Lenski, Garth Williams, and others that their correspondence and contributions would form the foundation for this extraordinary trove now visited by scholars from around the world. Such major authors and illustrators as Ezra Jack Keats, Richard Peck, Rosemary Wells, Angela Johnson, and John Green continued to donate content. In addition, curators, past and present, have acquired both historical and contemporary volumes of literature and criticism.

Introducción a la lingüística hispánica José Ignacio Hualde 2009-12-03 Written entirely in Spanish, this is the ideal introduction to Spanish linguistics for students. Using clear explanations, it covers all the basic concepts required to study the structural aspects of the Spanish language - phonetics and phonology, morphology and syntax - as well as the history of Spanish, its dialects and linguistic variation. This second edition incorporates new features designed to enhance its usefulness for classroom teaching: chapters have been added on the sociolinguistics of Spanish in the USA, and on semantics and pragmatics. The chapter on syntax has been considerably expanded.

Numerous exercises have been added throughout the book, as well as a new

glossary to help with technical terms.
